VIH Execujet CORONAVIRUS RESPONSE MESSAGE FROM OUR CEO

Dear VIH Execujet Clients,

Our number one priority is the health and safety of our passengers, crewmembers and employees. As with most organizations, we have closely monitored the impacts of Coronavirus and have followed the advice of medical professionals. As a result, we have developed our COVID PROTECTED Zero-Touch Travel Safety program in order to provide our passengers with the safest possible travel option.

I am pleased to report that since March 2020 our travelling clients, crews and employees have all remained 100% COVID free. We are proud of our response to this pandemic and our ability to provide a safe flight service.

This is primarily due to our Zero-Touch Travel Safety service and the constant diligence of our flight and ground crews who meticulously clean and sanitize our aircraft cabins before and after each flight. In addition, our employees and crews take numerous precautions while at home, in the office and while travelling to minimize exposure risk and maintain high levels of isolation and social distancing. Our office has always been uncrowded with isolated offices and ample social distancing space.

Our team takes immense pride in the role we play in the lives of our customers supporting their flight needs. We want you to know that you can continue to rely on us to provide exceptional service with the safest travel environment possible. Thank you for your continued support in this difficult time and know that it is always a privilege to welcome you aboard our aircraft.

Kind regards,

Ken Norie
Chief Executive Officer
